Healthcare Analytics Dashboard

KALAIARASAN.M

SQL | Power BI

Business Problem

The Healthcare Organization wants to:

- Analyze patien demographics
- Identify Key healthcare trends
- Monitor treatment cost patterns
- Improve hospital decision-making

Dataset Includes

- Patient Demographics
- Admission & Treatments Data
- Cost & Billing Information
- Outcome & Trends Data
- Dataset: Healthcare Dataset
- 1 lakhs + Records
- Includes Patient, Revenue & Treatments details

Demographics Dashboard

Demographic Analysis:

- Majority of patients fall in middle-age group
- Gender distribution shows slight variation
- Certain age groups require more medical attention

Hospital	Arthritis	Asthma	Cancer	Diabetes	Hypertension	Obesity	Total
Brown Group			2	3	1	1	7
